

**Triple A for Citizens**

**Supporting Access to information, Advice & Active help**

Brussels, 18 September 2015

Dear Sir/Madam,

We, the implementing partners of the project [Triple A for citizens, Access to information, advice and Active help](#), and members of the [Triple A network](#), are **deeply concerned** by the lack of a common European approach to the current migrant crisis in Europe and by the threat this poses to such founding principles of the Union as solidarity, freedom of movement and protection of human rights. For that reason we have decided to join the [U-Impact ACCES](#) campaign for a higher involvement of citizens in the discussions concerning this issue.

As representatives of organizations working on providing free legal aid and counsel to refugees and asylum seekers traveling through our countries in Western Balkans and Turkey, but also in the destination countries of the European Union, we are especially concerned by what we believe is **an inadequate involvement of the EU institutions with organisations working directly with refugees on issues such as creating a common migration policy** and reviewing the mechanisms which guarantee freedom of movement.

The undersigned organisations include the European Citizen Action Service (ECAS) in Belgium, National Association of Citizens Information Services in Ireland, the National Association of Citizens Advice Bureaux in Romania, Law Centres Network in the UK, Association for Democratic Initiatives in Bosnia and Herzegovina, Civil Rights Program in Kosovo, Lawyers' Committee for Human Rights in Serbia, Civil Society Development Centre in Turkey, Macedonian Young Lawyers Association, Open Society Foundation Albania, Centre for Monitoring and Research in Montenegro, Vasa Prava BiH Legal Aid network, the Foundation for Local Democracy in BiH, Civil Rights Project Sisak, Zajedno Zajedno Serbia, and the Network of the Committees for Human Rights Serbia.

Our organizations are committed to participate with their expertise in the development of such policies and urge you to stand for citizen participation in the decision-making process on these important issues.

Sincerely,
